Last week we were in the Czech Republik for the Extreme Euro Open. The match was great, and visiting the Czech Republik was interesting.

Pictures from the event are now online in our gallery.

The stages were good, plenty of challenging shots, but not hard to figure out. I'm pretty sure we'll be back next year. Unfortunately we had to leave before the results were announced, due to an unfortunate combination of match delay due to a rain storm, lack of hotel rooms and the need to be back in Denmark sunday evening.
